2019 CINP International Meeting

3-5 October 2019 Athens, Greece

First Announcement

This 2.5 day international meeting will feature plenaries, meet the expert sessions, satellite symposia as well as interactive educational workshops.

Welcome Message

from the President

On behalf of the Executive Committee of the International College of Neuropsychopharmacology (CINP), I would like to invite you to the 2019 CINP International Meeting taking place in Athens, Greece in October 2019 as well as the 32nd CINP World Congress of Neuropharmacology taking place in Taipei, Taiwan in June 2020.

The 2019 CINP International Meeting will focus on 'breakthroughs & controversies in mood, psychosis, schizophrenia, ADHD, and insomnia.' The 2019 Athens Meeting looks to expand on the 2017 Prague Meeting on 'Treatment Resistant Depression and extend the program to a wider field of psychiatry.

The 2020 World Congress welcomes delegates from all over the world to the beautiful city of Taipei to carry the momentum of the previous World Congresses in Seoul and Vienna to continue our core mission of attempting to link the advances in brain sciences to the alleviation of the distress and disabilities associated with neuropsychiatric disorders. With

advances in neuroscience, we believe that this is an exciting time for the understanding of psychiatric pathophysiology and the 32nd World Congress will feature the most up-to-date research, diverse topics of interest, and educational sessions with leading experts.

We hope that you will be able to join us to move forward the research and education of psychopharmacology from previous CINP Meetings.

Professor Siegfried Kasper
President of CINP (2018 - 2020)

CINP 2019

Program at a Glance
